

Workshop on Leveraging Space Technology and Geospatial Innovation for District Level Planning and Good Governance held in Tamulpur

Assam rising, Tamulpur, January 10: A pioneering workshop on space technology and geospatial innovations was organized on January 9th, in the Conference Hall of the Office of the District Commissioner, Tamulpur. The event was spearheaded by the Assam State Space Application Centre (ASSAC), under the Department of Science, Technology and Climate Change, Government of

Assam, in collaboration with the District Administration. The workshop, aimed at promoting the application of space technology for regional development, was inaugurated by P.L.N. Raju, Director of ASSAC, who emphasized the potential of space-based solutions in transforming Tamulpur into a model district. The District Commissioner of Tamulpur, Pankaj Chakravarty, in his address, highlighted the pressing issue

of human-elephant conflict in the region and the role of space technology in addressing such challenges. A key highlight of the event was the unveiling of a booklet focused on the development prospects of Tamulpur, which was prepared specially for the district by the ASSAC team. Kickstarting the workshop, P.L.N. Raju delivered a detailed presentation on the various applications of space technology and

geospatial tools in improving governance, resource management and planning. B.K. Handique, head of ASD & PPG, North Eastern Space Application Centre (NESAC), offered valuable insights into the significance of space technology for Assam and the northeast region. Additionally, Utpal Sharma, Additional Director of ASSAC, provided an in-depth overview of Remote Sensing (RS) and Geographic Information Systems (GIS) applications, emphasizing their utility in monitoring and managing resources. Nilay Nishant from NESAC also demonstrated several advanced tools, including mobile apps and dashboards such as NESDR, NRSC, ISRO Bhuvan, etc. designed to enhance governance and service delivery. The workshop saw presentations by

leading scientists and officials from ASSAC, including Runjun Baruah, Kaustav Baruah, Debashis Baruah, Dr. Kalyanjit Sharma and Pranjit Kalita, who shared their expertise on the application of space technology in various fields. The session was further enriched by virtual contributions from Shashikant Sharma from SAC ISRO, Ahmedabad and Dr. Harish Karnatak from the Indian Institute of Remote Sensing (IIRS), Dehradun. Attended by senior district officials, including the Additional District Commissioners, Assistant Commissioners and department heads, the workshop marked a significant step towards integrating advanced technology for sustainable development in Tamulpur district.

Three day long book fair and agricultural festival kicked off

Assam Rising, Nagaon, January 10: The three-day Nonoi-pariyaya Book Fair and Agricultural Festival kicked off today at the Madhab Kandali Kshetra in Nonoi HS school playground today here. The event was inaugurated by the incumbent king of Gobha, Deep Singh Deoraja who highlighted the history of tiwa community and its sacrifice during the rule of British to regain indigence at its land, regretting that the historians had left all those glorious pages of the community

to record in their respective history books. Noted Assamese poet Neelam Kumar, who was the chief guest, recited several of his famous poems and expressed his concern about the current state of society. He emphasized the importance of book fairs in spreading knowledge and creating a better environment. Ranju Hazarika, a prolific author, was also attended the inaugural session of the book fair as well as agriculture festival today as the guest of honour and also addressed the occasion highlighting the current sce-

nario of the state's intellectuals and book reading. The festival also featured a free health check-up camp, a quiz competition, and a series of cultural programmes. The event aims to promote literacy, agriculture, and cultural exchange in the region. The organizers have invited people from all over the district and beyond to participate in the festival. The three-day event will conclude on January 12 with a special programme featuring a book release, a panel discussion, and a cultural performance.

Laser Based Wheel Profile Measurement System introduced in NFR

Assam Rising, Guwahati, January 10: Northeast Frontier Railway has introduced laser based wheel profile management system. There are two types of measurement system, Calipri C42 & Calipri Prime. These systems are non-contact wheel profile measurement sensors which are portable, lightweight and easy to operate. These measuring instruments meet the specific demands of the railways by delivering accurate and reproducible results, independent of operator influence. These specialised profile measurement devices are widely used

for wheel wear inspection, brake disc measurement, wheel back-to-back and diameter measurement and rail wear inspection. CALIPRI C42 is a multi-functional device that can perform measurements like measuring wheel profile, brake disc width, wheel diameter, tire thickness and wheel clearance. CALIPRI Prime is specially focused only on wheel profile measurement. It contains sensor

and calibration equipment to measure dimensions of wheel which is displayed on sensor display and can be

compared with pre-defined limit values. A Trains wheel sets are typical wear parts, and have significant effects on passenger comfort and safety as well as noise and ride. Profiles of wheels, brake discs, rails and switches are therefore regulated by recurring measurement operations in demanding operating conditions. The challenge lies in the efficient generation of valid measurement data for the entire wheel-rail system. Efficient wheel set profile measurement can drive timely maintenance actions and help minimise train running time, as well as ensuring a smooth and safe journey for rail passengers.

Dr. YK Mohanta Awarded International RNP-2024 Grant

Assam Rising, Guwahati, January 10: Dr. Yugal Kishore Mohanta, an Assistant Professor and Group Leader of the Nanobiotechnology and Translational Knowledge Laboratory in the Department of Applied Biology at the University of Science and Technology Meghalaya (USTM), has been honored with the international Research Networking Project (RNP-2024) grant. This initiative, funded by XJENZA MALTA under the Government of Malta, is a collaborative effort with Professor Renald Blundell from the University of Malta. The project, designated as RNP-2024-008, is titled "Developing therapeutic functional foods by formulating symbiotic microcapsules using edible mushrooms as

probiotic resources—MYCO-BIO." Commenting on the project, Dr. Mohanta said: "This endeavor will significantly advance the development of functional foods, leveraging mushrooms as a promising food resource for the future." Dr. Mohanta has a proven track record in research, having successfully completed a project grant from the Department of Science and Technology—Anusandhan National Research Foundation (DST-ANRF) for the term 2022-2024. The primary goal of the RNP-2024 project is to establish enduring research collaborations between USTM and the University of

USTM's global mission. This collaborative effort will enable researchers and students from both institutions to engage in meaningful exchanges, paving the way for future research opportunities and innovations.

Cachar observes National Road Safety Month 2025

Assam Rising, Silchar, January 10: Demonstrating an unwavering commitment to fostering safer roads, the District Administration of Cachar organized a landmark Road Safety Awareness and Capacity-Building Meeting at the DC's Conference Hall here on Friday. This significant event, held under the able leadership of District Commissioner Mridul Yadav, formed a key highlight of the National Road Safety Month 2025 celebrations, reflecting a collective resolve to curb road accidents and promote responsible behavior. The meeting brought together an impressive assembly of distinguished officials and community representatives. Among the notable attendees were Dr. Dhruva Jyoti Hazarika, Additional District

Commissioner, RS Kumar, IPS; Ajit Das, Superintendent Engineer; P Chorai; Romesh Shyam, District Transport Officer (DTO); the Deputy Director of Nehru Yuva Kendra; and representatives from prominent NGOs. Each participant reiterated their dedication to addressing road safety concerns with practical solutions and community involvement. In his keynote address, DC Mridul Yadav emphasized the shared responsibility of ensuring road safety. "Road safety transcends the responsibilities of government departments and becomes a civic duty for every individual. Adhering to traffic rules, practicing vigilance, and spreading awareness are vital measures that can collectively save lives," he stated. His remarks set the tone for a comprehensive dialogue on tackling road

safety issues with actionable and sustainable strategies. The District Commissioner called upon stakeholders to adopt a holistic approach to road safety challenges. He stressed the importance of educational campaigns to instill a culture of safety among children and youth, particularly in schools, colleges, and rural communities. Additionally, he highlighted the urgency of upgrading infrastructure with features such as road signage, reflective markings, and speed breakers in accident-prone zones. Enforcing traffic rules through stringent monitoring and penalties was also prioritised, along with equipping officials and volunteers with advanced training to handle emergencies and road safety issues more effectively.

No.TDB/GAD/102/2024-25/1522 Date 10/01/2025
